

December 28, 2019

Dear participants !

This poster competition is designed to offer an avenue for mathematics students to express their creativity, show their research or simply talk about a piece of mathematics that they find beautiful. The subjects can vary from the more obscure to the more applied parts of mathematics, you can really present anything ! The poster contest will be held during the Wine and Cheese on the first day of the conference.

The **rule** is simple

- Your poster must be of size 34" wide by 33" high, namely 4 columns and 3 rows of 8.5" x 11" sheets of paper.

The **criteria** on which your poster and presentation will be evaluated are

- Clarity of the information presented on the poster (e.g. is everything fluid, well organized, not too crowded but containing enough information).
- Clarity of the presentation (e.g. do you spark the interest, do you vulgarize, do you use your poster as a visual support).
- Originality of the selected topic.

and the **jury** will be composed of professors and PhD students. The **prizes** are of 125\$ for the first place, 50\$ for the second place and 25\$ for the third place. The winners will be announced at the end of the reception.

Furthermore, the SUMM offers a **reimbursement** of 70\$ of the price of your poster on presentation of a receipt. We encourage you to put the Logo of the SUMM on your poster as a beautiful memory of the event !

#### Useful tips to produce a poster

- One can use either PowerPoint or LaTeX to create a poster. For the former, we encourage you to visit <https://libguides.tru.ca/academicposters/size> and to look for the *Pro Tips* section at the bottom of the page. For the later, there are free templates ready to download from Overleaf via <https://www.overleaf.com/gallery/tagged/presentation>.
- A french presentation on how to do a poster is available to download in pdf from the website.

More information is available on our website ***summ.xyz***

Thank you for your participation !
